**Mr. Gil Short
Command Automotive
Goodlettsville, Tennessee**

Mr. Short,

The Boone County Fiscal Court, Fleet Services Division has been using Rotors supplied by Command Automotive as a test since September, 2002. We feel that since that time these rotors have surpassed the normal wear and tear that has been experienced with original equipment rotors and that the price has been very competitive with that of other manufacturers.

We presently have 150 pursuit vehicles out of a fleet of 500 vehicles that will eventually be outfitted with these rotors. I feel that the savings alone is enough reason to continue to use your company, but also the reliability and dependability are of great concern also. It is our goal, with proper maintenance to equip each vehicle with one set of rotors for the life of the vehicle.

Sincerely,

**Jim Reisenbeck
Fleet Services Supervisor
Boone County Fiscal Court**
